

# Aquaculture Tanks 2021 Price List

Dolphin Fiberglass Products, Inc. has been manufacturing fiberglass aquaculture tanks, water cisterns, aquariums and fish ponds for over 35 years. We have more than 400 standard sizes and shapes and specialize in custom fabrications. We have the personnel, facility and know how to manufacture the tanks you need in any size, shape, or quantity.

Please visit our web site at [www.aquaculturetanks.com](http://www.aquaculturetanks.com) Call 305-247-1748 or E-mail: [dolphinfbg@aol.com](mailto:dolphinfbg@aol.com)

## GENERAL INFORMATION:

- 1) The standard interior gel coat colors are white, black, or sky blue. Other colors are available for an extra charge.
- 2) Most tanks are painted on the exterior with a water base, latex, gray primer paint.
- 3) Most tanks are engineered to be fully supported on the bottom.
- 4) Prices on all 2 piece or multi sectional tanks include assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking, and gel coat) and directions.
- 5) All measurements are outside dimensions and accurate within 1". The inside dimensions can be up to 10" smaller due to the heavy flange around the top of some tanks. Consult with the factory if the inside measurements are critical.
- 6) All liquid volume measurements are calculated as if the tank were completely filled with water to overflowing.
- 7) Prices do not include tax or shipping and crating of merchandise. These charges are additional.
- 8) Volume discounts are available.
- 9) Two-year limited warranty.
- 10) Prices effective January 1, 2021. Prices, materials, and/or specifications are subject to change.

## POLICY FOR TERMS AND CONDITIONS OF PAYMENT: **Note: We do not accept credit cards**

### GOVERNMENT AGENCIES OR INSTITUTIONS:

Small orders under \$1,000

Purchase order is required with payment due net 15 days.

Large orders \$1,000 and over

Purchase order is required with a 50% deposit and balance due net 15 days.

### PRIVATE CUSTOMERS:

A 50% deposit is required for each order with balance due on completion and prior to shipment. All applicable sales taxes, duty and brokerage fees, shipping and crating charges are extra. Florida Sales Tax applies to orders shipped within the state of Florida unless the customer provides a Florida Resale Tax Exemption Certificate or an Agriculture Farm Equipment Exemption Certificate. There is no sales tax collected on shipments delivered out of the state of Florida or export shipments. For orders being shipped out of the country, the balance must be paid in US dollars prior to shipment.

**Visitors welcome, however, you must call in advance to  
schedule an appointment and obtain the factory address and directions.**

**Note: The mailing address is not the factory address**

10'6"	6'	3,535 GAL	\$ 6,965
10'6"	7'	4,120 GAL	\$ 7,685
10'6"	8'	4,710 GAL	\$ 8,400
12'6"	2'	1,690 GAL	\$ 4,850
12'6"	3'	2,500 GAL	\$ 5,700
12'6"	4'	3,375 GAL	\$ 6,560
12'6"	5'	4,240 GAL	\$ 8,245
12'6"	6'	5,085 GAL	\$ 9,155
12'6"	7'	5,935 GAL	\$ 10,075
12'6"	8'	6,780 GAL	\$ 11,000
15'6"	2'	2,650 GAL	\$ 6,980
15'6"	3'	3,975 GAL	\$ 8,040
15'6"	4'	5,300 GAL	\$ 9,095
15'6"	5'	6,620 GAL	\$ 11,140
15'6"	6'	7,950 GAL	\$ 12,210
15'6"	7'	9,275 GAL	\$ 13,320
15'6"	8'	10,600 GAL	\$ 14,420

NOTE: All tanks larger than 8'6" diameter and up to 4' high are one piece construction and require no assembly.

The 8'6" diameter in 5' & 6' height has additional jump rings to achieve the added height. The 10'6", 12'6", & 15'6" diameter tanks in the 2', 3', & 4' depth consist of two half-moon pieces. These same tanks in the 5', 6', 7', & 8' height consist of two half-moon bottom sections with additional jump rings to achieve the added height.

Sumps are not included in tanks smaller than 20' 6" in diameter.

Price includes 3/4" thick foam core sandwiched in bottom, with a protective fiberglass outer layer on tanks 6' diameter and over, therefore, no concrete slab is required.

Price includes assembly materials for 2-piece tanks (resin, fiberglass tape, stainless steel nuts & bolts, caulking and gel coat) and directions.

Skimmer boxes, viewing windows, insulation and lids are available as an option.

40'9"	12'	113,040 GAL	\$ 96,795

The 20'6" tank consists of 4 side panels and 4 triangular floor sections with choice of flat or 5° center donut and sump with coupler.

The 25'6" tank consists of 6 side panels and 6 triangular floor sections with choice of flat or 5° center donut and sump with coupler.

The 30'9" tank up to 7' high consists of 8 "L" shaped side panels and 8 triangular floor sections with choice of flat or 5° center donut and sump with coupler, this same tank over 7' high has additional jump rings to achieve the added height.

The 40'9" tank up to 6' high consists of 8 "L" shaped side panels and 8 triangular floor sections with choice of flat or 5° center donut and sump with coupler, this same tank over 6' high has additional jump rings to achieve the added height.

Price includes ¾" thick foam core on bottom, with a protective fiberglass outer layer, therefore, no concrete slab is required.

Price includes assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking and gel coat) and directions. Skimmer boxes, viewing windows, and insulation are available as an option.

20'6"	<i>Any of these tanks can be installed with a 5° slope</i>			N/A	\$ <b>SAME PRICE</b>	N/A
25'6"	<i>to the center. This is achieved by installing an 8'</i>			N/A	\$ <b>AS FLAT</b>	N/A
30'9"	<i>diameter donut shaped center circle.</i>			N/A	\$ <b>BOTTOM TANKS</b>	N/A
40'9"				N/A		N/A

NOTE: Dimensions are based on overall outside measurements. The inside dimensions vary depending on the flange size around the top. Call if inside dimensions are critical. All tanks larger than 8'6" diameter and up to 4' height are one-piece construction and require no assembly. The 10'6", 12'6", & 15'6" diameter tanks in the 2', 3', & 4' depth consist of two half-moon pieces.

These same tanks in the 5', 6', 7', & 8' height consist of two half-moon bottom sections with separate top sections for the added height. Sumps are not included in tanks smaller than 20' 6" in diameter.

The 20'6" tank consists of 4 side panels and 4 triangular floor sections with choice of flat or 5° center donut and sump with coupler.

The 25'6" tank consists of 6 side panels and 6 triangular floor sections with choice of flat or 5° center donut and sump with coupler.

The 30'9" tank up to 7' high consists of 8 "L" shaped side sections with floor attached and 8 triangular floor sections with choice of flat or 5° center donut and sump with coupler. This same tank over 7' high has additional jump rings to achieve the added height.

The 40'9" tank up to 6' high consists of 8 "L" shaped side sections with floor attached and 8 triangular floor sections with choice of flat or 5° center donut and sump with coupler. This same tank over 6' high has additional jump rings to achieve the added height.

Price includes ¾" thick high-density, double contoured, structural foam core sandwiched in bottom with a protective fiberglass outer layer. This applies to tanks 6' diameter and over, therefore, no concrete slab is required.

Price includes assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking and gel coat) and directions.

Skimmer boxes, viewing windows, insulation and lids are available as an option.

23'6"	15'8"	6'	13,350 GAL		\$ 21,285
Unlimited 8' Long Sections		6' x 8' Length	Adds 5,400 GAL	(pair price for left & right 8' sections)	\$ 9,075
23'6"	15'8"	7'	15,575 GAL		\$ 24,415
Unlimited 8' Long Sections		7' x 8' Length	Adds 6,300 GAL	(pair price for left & right 8' sections)	\$ 11,095
23'6"	15'8"	8'	17,800 GAL		\$ 27,840
Unlimited 8' Long Sections		8' x 8' Length	Adds 7,200 GAL	(pair price for left & right 8' sections)	\$ 13,425

NOTE: Dimensions are based on overall outside measurements. Deduct 6" from length and width to determine inside measurements. Additional mid sectional panels are available to expand the tank length in 8' increments. To prevent the sides from bowing these tanks require partial burial. Top cross bracing or triangular side supports are available as an option if partial burial is not possible. Price includes 3/4" thick foam core sandwiched in bottom with a protective fiberglass outer layer, therefore, no concrete slab is required. Price includes assembly materials (resin, fiberglass tape, nuts & bolts, caulking and gel coat) and directions. A dividing wall can be installed along the centerline in order to make a "D" end racetrack tank. Other options include bottom drains, skimmer boxes, viewing windows, and insulation.

### TOP CROSS BRACING

LENGTH	WIDTH	THICK	PRICE
11'	6"	2"	\$ 225
13'	6"	2"	\$ 245
16'	6"	2"	\$ 275

NOTE: To prevent the tank sides from bowing, top cross bracing may be required every 4 feet. Price includes s/s hardware. Dyneema rope, s/s cable or chain is also available as a cross bracing option. Call for pricing.

### TRIANGLE SIDE BRACE

OVERALL HEIGHT	BOTTOM LENGTH	PAIR PRICE
3'	1'6"	\$ 815 PER/PR
4'	2'	\$ 935 PER/PR
5'	2'6"	\$1,055 PER/PR

NOTE: To prevent the tank sides from bowing triangular supports are required every 4 feet. Price is per pair and includes installation materials (resin, fiberglass tape, nuts & bolts, caulking and matching exterior paint) and directions. Custom sizes are available. Call for pricing.

## CENTER DIVIDING WALL

DESCRIPTION	SQUARE FOOT PRICE
The center dividing wall is available in 2', 3', 4', 5', 6', 7, & 8' heights and in any length. The price includes assembly materials for installation. A top cross brace may be required in some applications, at an additional charge.	\$ 45.00

## SEMI-SQUARE SECTIONAL TANKS

OUTSIDE LENGTH	OUTSIDE WIDTH	HEIGHT	GALLONS	CORNER RADIUS	PRICE
13'	13'	2'	2,040 GAL	4'6"	\$ 7,030
13'	13'	3'	3,060 GAL	4'6"	\$ 8,270

21'	21'	5'	14,325 GAL	6'	\$ 23,125
21'	21'	5'9"	16,474 GAL	6'	\$ 26,330
26'	26'	2'	9,105 GAL	6'	\$ 25,080
26'	26'	3'	13,657 GAL	6'	\$ 27,425
26'	26'	4'	18,210 GAL	6'	\$ 29,875
26'	26'	5'	22,760 GAL	6'	\$ 32,415

**NOTE:** Dimensions are based on overall outside measurements. The inside measurements are 1' less in length and width.

The 13' x 13' tank consists of 4 "L" shaped side sections with floor attached and a choice of sump with coupler.

The 21' x 21' tank consists of 4 "L" shaped side sections with floor attached plus 2 rectangular center floor sections and a choice of sump with coupler.

The 26' x 26' tank consists of 4 "L" shaped side sections with floor attached plus 2 rectangular center floor sections and a choice of sump with coupler.

All semi-square tanks include a choice of center sump, square or round, with PVC coupler. Price includes  $\frac{3}{4}$ " thick foam core in bottom, with a protective fiberglass outer layer, therefore, no concrete slab is required. The semi-square design provides 20% to 22% more water volume and cost approximately 35% to 45% more than a similar size round tank. Price includes assembly materials (resin, fiberglass tape, nuts & bolts, caulking and gel coat) and directions. Large acrylic windows can be installed in the flat sections of these tanks. Please call for a quotation. Other options include skimmer boxes, side bottom drains and insulation.

22'6"	6'7"	3'	2,876 GAL	\$ 9,500
22'8"	6'9"	4'	3,975 GAL	\$12,500

**NOTE:** Dimensions are based on overall outside measurements. The inside dimensions may be up to 10" smaller due to the heavy flange around the top of the tank that is necessary to prevent bowing. Call if the inside measurements are critical. Tanks over 24" high are cored on the sides with foam of various thicknesses to prevent bowing and provide insulation. Price includes ¾" foam core sandwiched in bottom with a protective fiberglass outer layer; therefore, no concrete slab is required. All tanks listed above are one-piece construction, free standing, and self-supporting with no cross bracing. For proper installation tanks must be fully supported on the bottom. Extra heavy lay-up and box legs are available as options. Other options include skimmer boxes, viewing windows, insulation and lids. Any of the above tanks can be made with less height. A recessed circular depression can be fabricated in the tank bottom to flush mount a bulkhead fitting at no additional cost.

**NOTE: We can custom build square & rectangular tanks to your specifications. Please call for a quote.**

## RECTANGULAR TANKS WITH VARIOUS BOTTOM CONFIGURATIONS

DESCRIPTION SYMBOL	OUTSIDE LENGTH	OUTSIDE WIDTH	HEIGHT	GALLONS	PRICE

VV Hip Angled Bottom	5'6"	2' 6"	1'10"	130 GAL	\$ 740

### SYMBOL DEFINITIONS AND DESCRIPTIONS OF ABOVE TANKS

\ -----	Flat bottom with 1" slope – deduct 1" from height to determine height at shallow end.
\ \ -----	Sloped 38" to 28" and has twin support box legs and cored bottom. Overall height is 44" with a gutter trough at the deep end.
U -----	Arched horseshoe type bottom requires leg supports, which are not included in price. Call for price.
V -----	Tapered hip angled bottom w/teardrop center sump (side wall height 12" & requires support base).
VV -----	Tapered hip angled bottom w/teardrop center sump (side wall height 18" & requires support base).

NOTE: Dimensions are based on overall outside measurements. The inside dimensions are smaller due to the flange around the top of the tank that is necessary to prevent bowing. Call if the inside measurements are critical. Tanks over 24" in height are cored on the sides with foam of various thicknesses to prevent bowing and provide insulation. Due to the various bottom configurations on the tanks listed above, some means of support is required for the tanks to sit level. Unless specified otherwise bottom supports are not included in the price.

**Note: We custom build square & rectangular tanks to your specifications. Please call for a quote.**

## ROUND WATER STORAGE CISTERNS WITH CLOSED TOP & ACCESS HATCH

OUTSIDE DIAMETER	HEIGHT	GALLONS	PRICE
5'	8'	880 GAL	\$ 2,665
6'6"	8'	1,560 GAL	\$ 4,085
8'6"	8'6"	2,820 GAL	\$ 6,730
10'6"	8'6"	4,725 GAL	\$10,465
12'6"	8'6"	6,780 GAL	\$13,950
15'6"	8'6"	10,640 GAL	\$19,310

NOTE: The 5', 6'6", & 8'6" cisterns are two-piece construction. The 10'6", 12'6", & 15'6" are four-piece construction. The 5', 6'6" cisterns are flat on top. The 8'6", 10'6", 12'6" & 15'6" cisterns have a 5° pitch on top to shed rainwater. These tanks can be ordered with a flat top to lower the height by 6". There is no additional charge for this option. The bottoms are cored with ¾" thick foam with a protective fiberglass outer layer; therefore, no concrete slab is required. The top hatch opening is 35" long x 15" wide. Price includes assembly materials (resin, fiberglass tape, nuts & bolts, caulking and gel coat) and directions. The above cisterns are also available in 4' & 6' heights. Some of the above cisterns can be assembled at our factory for an additional charge. Priced on request.

## RECTANGULAR WATER STORAGE CISTERNS WITH CLOSED TOP & ACCESS HATCH

OUTSIDE LENGTH	OUTSIDE WIDTH	HEIGHT	GALLONS	PRICE
8'8"	4' 6"	8'	1,226 GAL	\$ 8,630
8'8"	6' 6"	8'	1,976 GAL	\$ 10,835
8'8"	8' 6"	8'	2,726 GAL	\$ 12,780
10'8"	4' 6"	8'	1,586 GAL	\$ 10,340
10'8"	6' 6"	8'	2,550 GAL	\$ 12,790
10'8"	8' 6"	8'	3,524 GAL	\$ 14,885
12'8"	4' 6"	8'	1,944 GAL	\$ 12,015
12'8"	6' 6"	8'	3,130 GAL	\$ 14,675
12'8"	8' 6"	8'	4,322 GAL	\$ 16,965
14'	4' 6"	8'	2,304 GAL	\$ 13,110
14'	6' 6"	8'	3,710 GAL	\$ 15,950
14'	8' 6"	8'	5,120 GAL	\$ 18,355
16'	4' 6"	8'	2,664 GAL	\$ 14,800
16'	6' 6"	8'	4,290 GAL	\$ 17,880
16'	8' 6"	8'	5,918 GAL	\$ 20,455

NOTE: These cisterns consist of two pieces (top & bottom) and require assembly. The long sides are cored with 6" thick foam planks to reduce bowing. The bottom is cored with ¾" thick foam with a protective fiberglass outer layer; therefore, no concrete slab is required. The top hatch opening is 35" long x 15" wide. Price includes assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking and gel coat) and directions. The above cisterns are also available in 4' & 6' heights. Custom sizes can be made by using two rectangular flat bottom tanks of the same size and installing one upside down on top of the other. All rectangular cisterns can be assembled at the factory for an additional charge. Shallow cisterns or custom sizes are priced on request.

## ORNAMENTAL FISH PONDS

LENGTH	WIDTH	DEPTH	PERIMETER	GALLONS	PRICE
11'8"	6' 1"	3'	29'	1,000 GAL	\$ 3,545
14'8"	7' 2"	3'	35'	1,500 GAL	\$ 4,435
19'8"	7' 8"	3'	46'	2,200 GAL	\$ 6,210
*20'6"	8' 6"	5'	50'	4,000 GAL	\$10,650

NOTE: All ornamental fish ponds have a smooth glossy gel coat interior and a flat bottom with the exception of the 20'6" length. \* This model has twin sloping bottom sections with twin air bubble diffuser drains and a side skimmer box. The above listed ponds are not self-supporting or free standing. They must be partially buried for proper installation. Extra heavy lay-up with foam coring is available for an additional charge if above ground installation is required. Priced on request.

## PRE-FILTER SETTLING CHAMBER WITH LID

LENGTH	OUTSIDE DIAMETER	SIDE HEIGHT	CENTER HEIGHT	CONE ANGLE DEGREE	GALLONS	PRICE
N/A	4'8"	26"	52"	60	300 GAL	\$ 3,000
7'7"	4'8"	26"	52"	60	400 GAL	\$ 4,000

The gravity fed pre-filter settling chamber is designed to be partially buried near the pond, and it removes 85% of the solid waste before it enters the main filter, allowing longer time periods between cleanings of the main filter. The price includes lids, two baffles and choice of PVC coupler size. These pre-filters are best cleaned by a trash pump located inside the chamber. The 7'7" long model has a rectangular extension on the side to allow room for additional bio-filter media. The filter media is not included in the price. **Please contact us for details.**

## STREAM CONNECTOR – FIBERGLASS TO LINER

DESCRIPTION	PRICE
Fiberglass connector is 2'6" wide x 6" deep and connects a flexible rubber stream liner to one of our fiberglass fish ponds. Price includes installation at customer specified location, provided this does not interfere with shipping. The rubber liner material is not included in the price.	\$ 580

## FIBERGLASS ROCK

DESCRIPTION	PRICE
58" long x 32" wide x 32" average height. This simulated rock is extra large and has enough room inside to cover a water pump, air blower and UV sterilizer. We recommend that two 3" holes be drilled in an inconspicuous location to allow for ventilation. This fiberglass rock has a beach sand finish on the exterior. Directions to paint the rock to match the natural rocks in your landscape setting are included.	\$ 715

## FIBERGLASS PUMP HOUSE

DESCRIPTION	PRICE
10' length x 8' width 6' height with a 4 ½" bottom flange. Designed with twin doors and twin louvered vents for cross ventilation. White smooth gel coat interior finish and light gray exterior primer paint finish.	\$ 7,995

## RECTANGULAR AQUARIUM WITH TAPERED BOTTOM

OUTSIDE LENGTH	OUTSIDE WIDTH	SIDE HEIGHT	CENTER HEIGHT	OVERALL HEIGHT W/WOOD BASE	VIEWING WINDOW	GALLONS	PRICE
4'6"	28 ½"	26"	32"	36"	44" x 21" Glass 3/8" thick	150 GAL	\$ 1,780
10'	36"	24"	27"	36"	44" x 19" Acrylic ½" thick (2-QTY)	385 GAL	\$ 3,555
10'	36"	24"	27"	36"	92" x 19" Acrylic 3/4" thick	385 GAL	\$ 4,440

The 150-gallon aquarium has a smooth, glossy, gel coat finish on the outside and a matte gel coat finish on the inside.

Price includes 3/8" safety glass front, ¾" thick foam core insulation on back & sides, 2 plastic support egg crate grids, 3/4" center drain sump fitting with suction screen, and 2" x 10" pressure treated wood base.

The 385-gallon aquarium has a smooth glossy gel coat finish on the inside. The exterior is painted with our standard gray latex paint.

It is available with twin acrylic windows or a single large acrylic window. Price includes ¾" thick foam core insulation on back and sides, 2" center drain (slip X thread) coupler, one top cross brace to prevent bowing, and a 2" x 12" pressure treated wood base.

## RECTANGULAR AQUARIUM WITH FLAT BOTTOM

LENGTH	WIDTH	HEIGHT	VIEWING WINDOW	GALLONS	PRICE
5'4"	4'4"	2'4"	46" X 18" Acrylic 3/4" thick	280 GAL	\$ 3,555

### 2-Piece Tanks

10'6"	8'6"	4'	7'6" x 3' Acrylic 2" thick	1,600 GAL	\$19,240
12'6"	10'6"	4'	7'6" x 3' Acrylic 2" thick	2,530 GAL	\$22,200
15'6"	13'6"	4'	7'6" x 3' Acrylic 2" thick	3,975 GAL	\$25,160

NOTE: The front viewing area size opening can be adjusted at the factory for your specific requirement.

The 10'6", 12'6", & 15'6" are 2 piece tanks and require assembly. Price includes assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking and gel coat) and directions.

## VIEWING WINDOWS FOR ROUND TANKS

DESCRIPTION	PRICE
Clear polycarbonate viewing window on side of round tank 20" X 12" opening (1/8" thick material)	\$ 470
Clear polycarbonate viewing window on side of round tank 28" X 20" opening (1/8" thick material)	\$ 535
Clear polycarbonate viewing window on side of round tank 44" X 20" opening (1/4" thick material)	\$ 715

The above windows are installed surface mount on the tank interior. The window protrudes inside of the tank approximately 3/8" and is installed with s/s nuts, bolts and washers. The pan head bolts are on the inside and nuts are on the outside of the tank.

Clear acrylic viewing window on side of round tank 44" X 27" opening (1" thick material)	\$ 2,960
--	----------

The above window is installed flush mount on the tank interior. The price includes the cost to build a receiver and to have the acrylic thermo formed to follow the contour of the tank.

## VIEWING WINDOWS FOR RECTANGULAR TANKS

Clear acrylic viewing windows on side of rectangular tanks are quoted on request. A receiver is built to flush mount the acrylic. Various size and thickness is available. Call for pricing.

## FOAM INSULATION

DESCRIPTION	SQUARE FOOT PRICE
3/4" thick foam insulation on sides and/or under bottom of tank with a protective fiberglass outer layer. (5 "R" factor)	\$ 9.80
1 1/2" thick foam insulation on sides and/or under bottom of tank with a protective fiberglass outer layer. (9 "R" factor)	\$ 10.30
3" thick foam insulation on sides and/or under bottom of tank with a protective fiberglass outer layer. (18 "R" factor)	\$ 11.60
4" thick foam insulation on sides and/or under bottom of tank with a protective fiberglass outer layer. (24 "R" factor)	\$ 12.50
6" thick foam insulation on sides and/or under bottom of tank with a protective fiberglass outer layer. (36 "R" factor)	\$ 24.30

**NOTE: If thick foam insulation is installed on the bottom of the tank a recessed dimple can be cast in, where the side meets the bottom, and a PVC coupler attached to facilitate complete drainage through the side of the tank. Call for price.**

## STRUCTURAL FOAM

3/4" thick high-density structural foam, double cut plus additional fiberglass protective outer layer. (5 "R" factor)	\$ 12.50
---	----------

## ROUND TANK LIDS (ROOFS) WITH LARGE ACCESS HATCH

OUTSIDE DIAMETER		TANK SIZE	CENTER PITCH	PRICE
5'6"	Fits	5' Tank	5 Degree Center Pitch	\$ 870
7'	Fits	6'6" Tank	5 Degree Center Pitch	\$ 1,290
9'	Fits	8'6" Tank	5 Degree Center Pitch	\$ 2,010
11'	Fits	10'6" Tank	5 Degree Center Pitch	\$ 2,925
13'	Fits	12'6" Tank	5 Degree Center Pitch	\$ 4,020
16'	Fits	15'6" Tank	5 Degree Center Pitch	\$ 5,980

All lids are two-piece constructions with a smooth gel coat finish on top to shed water quickly and reduce mildew. Roofs are cored with 3/4" thick high-density foam to reduce sagging. The access hatch opening is 35" long x 15" wide. The price includes materials to attach the lid (roof) to your tank.

**Note: Oval and Rectangular tank lids quoted on request.**

## SCREEN SLOTS

	PRICE PER RUNNING FOOT
1/2" x 1/2" x 1/2" PVC "U" channel permanently installed on sides and bottom of rectangular tanks.	\$ 18.00
\$100.00 MINIMUM CHARGE PER ORDER	

## SKIMMER BOX

VERTICLE HEIGHT	HORIZONTAL WIDTH	FRONT TO BACK	GALLONS	PRICE (NOT INSTALLED)	PRICE (INSTALLED)
18"	14"	12"	13 GAL	\$ 530	\$ 710
30"	24"	17"	53 GAL	\$ 745	\$ 920
30"	34"	18"	79 GAL	\$ 820	\$ 985
36"	28"	14"	62 GAL	\$ 850	\$ 1,030
42"	44"	12"	96 GAL	\$ 885	\$ 1,060

Price includes your choice of 2", 2 ½", 3", 4", 6", or 8" PVC coupler attached to bottom.

Price includes assembly materials (resin, fiberglass tape, nuts & bolts, caulking and gel coat) and directions.

**Note: Custom skimmer boxes can be built. Please call for a quotation.**
